

Master Accessories

Battlemaps

corridors and hallways vol. 1

Welcome

This accessory features the amazing rendered 3d maps produced by Ø1 Games. The maps come with 1 inch square grid. **Corridors and Hallways Vol.1** enhances the features of **Dungeon Rooms Vol. II** and **Dungeon Rooms Vol.1** by adding connections. You will find 12 maps and, of each map, three versions: full color, grayscale (optimized for B&W printing) and line art. The line art version is intended for very easy-printing. In **Corridors and Hallways Vol.1** you will three types of maps and four different maps for each type, each one showing the “I”, “L”, “T” and “X” intersection to suit all your needs. Two different corridor width are provided 20ft and 10ft. Each map shows a corridor or hallway from a top-down perspective with stunning lighting effects and superb 3D-rendered objects. You can easily print out these maps and place your favorite miniatures on them. Highly detailed, these maps add flavor and facilitate tactical movements while running combat encounters. A one-inch square grid is drawn on each map but blended in perfectly with the environment. Each map is printable on a single sheet of paper. You can print out the map you need in full color, or choose its grayscale-optimized version if you do not want to consume too much ink. Now you can even print the line art version which allows you to save more ink. Even if you decide to print them in color, these battlemaps will be always more cost-effective than a printed version, as you can print out just what you need... even multiples of your favorite ones.

Get Inspired

These maps are so detailed that simply looking at them can give thousand of ideas for your own games. Why does a blade of yellow light filters through the corridor's room door? What the large mosaic over the intersection of the Hallways of the Statues means? You know the answer, and your players will soon discover it.

Be Descriptive

Even if you do not use the battlemaps for combat, their amazing detail will assist you in corridor descriptions. Looking at the map while describing the hallway to the players becomes easier than read plain text. You could look at the map of the Hallway of the Statues and say:

“As you walk down the red-lighted hallway, you can see many statues looking at you; their grim eyes seems to follow every single step you make. The floor is made of huge red marble slabs and barely reflects the light of the torchlights on the walls...”

Build Your Own Dungeon

You can assemble a dungeon using the battlemaps, connecting them with dark hallways and dangerous corridors and finally fill them with hideous critters of your choice. The players will enjoy the battle in your custom built dungeon. More of these supplements are planned, and in no time you will be able to build any dungeon you desire. Take a look at the end of the book, you'll find a checklist of all the battlemaps produced by Øone Games.
