

# Helpful Lists

100 Potion &  
Other Drink Names

Ennead Games

## *Introduction*

The “Helpful” series is designed as seeds to help provide starting blocks for adventures.

These lists are meant for GM's, but players can use them as well.

This particular Helpful List is all about the names potions and other drinks your players find and consume. Some of them are good, some bad, others are downright weird, like Protection against Squirrels..?

What effects do these potions have? What ingredients are they made from?

Keep an eye out in the future for “Potions, Elixirs and other Drinks Kit” which will deal with these questions and more.
