Introduction

The Tavern Kit Part 4 introduces a random drink designer.

Here are 20 drinks made from the information from there. Roll a d20 and check the results.

More drinks using this system will be published on enneadgames.com

All you need to do is decide what the drink costs and what to call it.

Example:
Colour - Green
Smell - Lavender
Taste - Spicy
Texture - Smooth
Major Ingredient - Vinegar
Potency - 6%
Side Effect - Drunkenness & Hangover
Container - Lidded Mug
Other - Served/Drunk Very Cold

Most of the information should be obvious. Potency covers how strong the drink is and the chance of the side effect
